Snap-on Wire Clip in Stainless Steel

NEW!

Positions, protects cable • Eliminates Rust

Snaps onto sheet metal

Holds one or two cables

Perfect for solar applications

NO TOOLS! Arlington's new **Wire Clip** is now available in stainless steel -– for a *rustproof*, time-saving snap on installation.

Snap the SC200SS Wire Clip onto a sheet metal frame up to .080" thick. Choose the method that works best for you. Then snap one or two USE-2, PV or other cables/cords securely in place. *That's it.*

Installs Over... *or Under*

- **Wire Clip capacity**:
  ONE cable: min .160" to max .425"
  TWO cables: min .160" to max .300"

- Stainless steel material eliminates rust; the smooth finish on clip prevents cable damage

- Locking tab secures clip onto sheet metal

- Easy, time-saving installation
